

Instructions for Poster Presenters

To efficiently communicate the results of your research to viewers, the following guidelines are recommended when formatting your poster.

Deadline for submitting your poster: 10 October 2026.

- All presentations should be in English.
- Avoid using all capital letters, even in the title, as they are visually confusing.
- Make sure the text is large enough to read from 1 m away — keep it to a minimum of 18 pt, and even larger for the title.
- If possible, convert data to properly labelled graphs.
